gardens • paths • driveways • flowerpots
mulching • borders • ponds • landscaping

decorative shingle

● Smiths' decorative shingle (sometimes called decorative gravel or aggregates) is the perfect way to transform your garden. The range of size, shape and colour of the available shingles, gives a wide range of options when designing or enhancing the next landscaping project. Have you considered decorating your borders, or pots using Smiths decorative shingles - a great looking 'mulch' and you benefit from slug and weed control at the same time. And used on top of soil they can aid moisture retention in the water shortages during the summertime - plus providing insulation from temperature fluctuation.

Our decorative shingles have also been commonly used for paths and driveways. Enhancing the entrance to your home, or replacing the worn out grass path. Looking good and hardly any maintenance or upkeep. Bonus!

Whatever the project, Smiths have a whole range of different shingles, the expertise to help you through

the buying process (quantities required etc) and, if required, the construction team to do the complete project; from clearance to the new drive, or even that larger landscaping project!

We offer a FREE Sample Service - we will send you a sample of your chosen decorative shingle(s), so you can see and compare colour and shape, before you buy! Please note that due to the printing process and the fact that these decorative shingles are a natural product, colours may alter from those shown. So we recommend that you use our Free sample service. See before you buy!

Ordering is easy, just go to the web and click on 'How to Order' fill in the form and submit.

Plus there is a nationwide delivery service available for your convenience.

If you require further assistance or details please do not hesitate to call our Sales office. 01896 331281.
